Thank you for your inquiring about our products. We are the designer, manufacture and sole distributor of the Fire Safety Simulator with patent pending. Our product is designed to teach all ages about Fire Safety by bringing awareness to the top hazards in the home. Our information is base off the NFPA current study. Our product includes our lesson plan, information sheet on the specific facts on fires, and safety features in the home as a review. Our product also give you the flexibility to teach from by using a Foam Axe for inside application such as schools to public events, our lifelike Fire Nozzle, and Fire Extinguisher with water supply hookup and will work continuously off normal residential water pressure. This extinguisher is great tool to teach age appropriate students. Our unit is supplied with a double wall storage box with foam padding for storage when not in use.

Our Simulator is custom designed for free with your Department Logo, Department Name, Website and your favorite Fire Safety message. To get started we would need your logo for you unit. sent as one of the following formats (Vector, Adobe, or Jpeg File 1 MB +) for the best transfer of your image at a size of six inches on your Simulator. We have provided a list of fire safety messages that have been use or feel free to use your own phrase. Please check out our Website for more information and to see some of our more popular designs and past customers. We also offer other products for public education and fund raising. When we receive your order and information we will design a proof and return for your final approval before production. Please check out our website for our product video's and past sales. Our 2019 price \$1,795.00 each.
